

## PROJECT PROPOSAL TO HELP VICTIMS OF LANDMINE ACCIDENTS IN TAJIKISTAN

Project:	Support Centre for mine survivors
Pillar:	Victim Assistance
Project Budget:	\$6500
Funds Requested:	\$6500
Project Duration:	6 months
Head of Project:	Zainiddin RASULOV

### **Brief description of the Project.**

The Republic of Tajikistan was involved in civil war during 1992 - 1997. Each war leads to the collapse of economy, loss of relatives, low social rate of life and increase of number of orphans and disabled people. Unfortunately, one of the reasons of increasing number of disabled people is the mines laid during/or after the war.

Mine survivors are very vulnerable people as they get a very serious psychological stress. They belong to such a category of people who were healthy and suddenly became disabled ones. It is very difficult for them to overcome such a situation. Despite of this, they are members of the society and have to use all the rights to realize themselves. Taking all the above mentioned factors into consideration, we decided to establish a Support Centre for mine survivors. The Centre will be created within the Society of Disabled People of Dushanbe which has been implementing its activities during last 17 years and has a considerable experience.

### **Description of the Centre.**

The Society of Disabled People of Dushanbe undertakes its activities on the basis of the regulations issued by Tajikistan Association of Disabled People and in accordance with the Constitution of the Republic of Tajikistan (RT), Law of the RT on Public Associations, Law of the RT on social benefits of the citizens of the RT, Civic Codes of the RT and etc:

### **Targets of the Centre**

- ◆ Submit and defend interests and rights of disabled people,
- ◆ Support in realization of rights & benefits of disabled people, entitled by legislation;
- ◆ Participate in creating Support Centre for mine survivors.

### **Beneficiaries**

The Beneficiaries of this project are mine survivors, despite their gender, social status, religion and political opinions.

### **Objectives**

- Support to mine survivors
- Offer juridical consultations, psychological support, trainings, develop projects and business plans.
- In general, improve social status of mine survivors.
